

## Trip to Slovakia – reports from Norwegian pupils

I liked the trip to Slovakia, I learned new things and I was happy for the family I lived with.

It was funny to go on the shopping centre with the others. It was a lot of walking in the city. My feet was hurting. It was a bit boring to play golf. I also liked food they made.

---

It was fun and I learned a lot of things about Slovak history and culture. It was fun to get to know my host family and be with them.

I liked the activities and trips we did at the school.

I think this is a nice thing for teenagers to do because you learn and experience a lot. You will meet new people and make new friends. You get to explore yourself and also it is a good opportunity to practice your English with other people. It is fun to see how other teenagers on my age live in another part of the world.

I am having so much fun! Rebecca is so nice and funny!

I suck at golf, but it is really fun to play. I really love this place, so many beautiful things to see. And go out to shop in a group is something I haven't get to do in a while.

And so does friends I got here made me learn something important about friendships. And I also learned that to like both girl and boy is nothing to be ashamed of.

I learned many things here and I do not want to go back yet, I to stay longer.

But thank you for everything.

So I want to stay here. I am going to miss Martina and of course here friends... Andrej, Sophia, Ondrej and Tomas. Me, Ella, Kani and Martine have found some handsome boys, so I am happy!

Thank you!

I had a great time here in Slovakia. Not as I expected, but still very funny. Even though I got sick, I wouldn't have it any other way.

Tomas and his family was really nice to me and cared a lot about us. They made good food and wanted us to eat much. We spent some days at home, but some with others too. He took us to the mall, we watched a movie and went to jumping arena and spent some time at home. We also ate a lot of candy, I probably gained 3kg.

I had a great time!

It has been very fun to be here. Cold or warm, I did not care. I loved to play golf. My dad wants me to play golf with him and now I want to start play golf at home too. The family I lived with was so nice, they gave me good food and my own room and so much chocolate.

I liked the museums, but some of it was boring. I suck in writing English so sorry. Thank you for a fabulous week.

I really liked the nature in Bratislava. The woods were really green and beautiful. The places we went like the Red Stone Castle were really beautiful and it was a lot of history behind all of the monuments. All of the people at the school were really nice. Playing golf was a little hard, but mostly fun. My host family were really nice and it was fun talking to them. Koliba was really cold, but we still had a lot of fun. We drank Kofola for the first time. I did not really like it, but a lot of Norwegian people liked it. The biscuit Horalka was really good and I am going to bring a lot of them to Norway. I had a really good experience and I would love to come back one day.

I thought this trip was very fun. It has been very enlightening. I have learned much about Slovakian culture and history. Especially castles and golf. Golf was very fun, but also very hard. I have eaten much exciting food, that I have never tasted before. I have made many friends, and I have done much cool stuff. We went to trampoline place, because we do not have anything like that in Norway. It was very fun, and I enjoyed it a lot. Everyone here is very nice, and the family I stayed with were fantastic. They really cared about me. We also played football, floorball and we went longboarding. I have had very much fun also in school. It was cool to see Bratislava hill, it was amazing view.

To sum up, it has been amazing to be in Slovakia and I really want to go back. I hope that I can it one day and see all the friends I made again.
